

Business Online Banking

This Business Online Banking guide provides easy-to-use, online pages containing instructions for using Piedmont Federal's Business Online Banking system. The Company must complete a Business Online Banking User Agreement naming an Assigned Administrator so Piedmont Federal will know who is allowed to enroll for online banking for the Company.

Business Online Banking Enrollment

After you complete the *Enroll Online* pages displayed during this process, Piedmont Federal will review your enrollment request for your business and in most cases approve it.

During enrollment, a main administration user is set up for your business. If your enrollment request is approved, the administrator user may sign on to business on line banking and set up other users for your business.

On BROWSER: (Mobile App instructions at the bottom)

To enroll in Online Banking go to our website www.piedmontfederal.bank and click "Business Banking" then "Online Banking"

Business Information

TIN/ EINNumber:

Business Name:

Business Address1:

Business Address2:

Business City:

State:

Zip Code:

*Business Online Banking requires a Business Online Banking User Agreement to be signed before enrollment. Your local branch most likely had this signed during account opening.

Once your enrollment is received we will finish it up and send you an email within one business day!

On Mobile App:

Click "Enroll" in the bottom right corner then click the word "here" for Business Enrollment.
